

RAU IM2000 Animal Immobilizer user base growing rapidly

The RAU IM2000 Animal Immobilizer has established a widely dispersed and satisfied user base in 25 US states, Canada, Mexico, a number of Central and South American countries and other parts of the world since its introduction to North America by Atlanta Ga based, I & G Distributors USA some 6 years ago.

The ruggedly built RAU IM2000 Animal Immobilizer improves worker safety, reduces risk and lowers handler and animal stress by holding animals still, often without expensive squeeze chutes and head gates. Its users include cattlemen/women, veterinarians, universities, feedlots, breeders, dairy farmers, stockmen and many large and small ranchers

who use it for branding, dehorning, medical treatment, AI work, hoof trimming, grooming and many other routine tasks. It is light, comes in a handy carry bag for convenient transportation and its battery can be recharged from a vehicle power outlet or, with an adaptor, from the 110v AC supply to give 8 –10 hours of working time when needed.

Since its introduction to the cattle industry, it has been accepted by animal breeders and farmers and successfully used on a variety of other animals including deer, buffalo, camels, alpacas, pigs, horses, sheep and goats.

By inserting the aluminum probe into the animal's rectum and applying mild electronic stimulation, the animal will immediately be immobilized by interruption of voluntary muscle activity - (without affecting the involuntary muscles and organs such as heart and breathing). This then allows the user to perform procedures with or without assistance from other persons and restraining devices, as the application dictates. The degree of immobilization is fully controlled by the operator. Removal of the stimulus allows the animal to immediately return to its pre-immobilization state with no negative side effects, even on pregnant animals.

Working large animals can now be a whole lot easier, safer and less stressful thanks to the RAU IM2000 Animal Immobilizer which is backed by a 3 year parts and labor warranty (excl battery) and comes highly recommended by its users.
